

RENOVAR GEAR OIL

Renovar Gear Oil are designed to meet the demands of heavy duty applications where high torque, heavy loads and shock loads occur. Effectively blended basestock and additive systems provide protection of gearboxes and final drive components under tough operating conditions. The key benefits include:

- *Excellent oxidation stability that extends gear and bearing life*
- *Good protection at low speed/high torque*
- *Excellent rust and corrosion protection*
- *Effective low temperature lubrication*

MANUAL TRANSMISSION FLUIDS

GL4EP90, GL4EP140, GL4 80W90, GL4 85W140

AXLE OIL

GL5EP90, GL5 80W90, GL5 85W140

RENOVAR AUTOMATIC TRANSMISSION FLUID

High performance commercial gear lubricant formulated using advanced base oils and the latest technology additive system. This lubricant is engineered for heavy duty transmissions and rear axles where operations require gear lubricants with excellent load-carrying capability over wide operating temperatures and where extreme pressures and shock loading are expected.

- *ATF DEXTRON II*
- *ATF DEXTON III*
- *CVT GEAR OIL*

ANTIFREEZE AND COOLANT

- *Ethylene glycol based concentrated radiator coolant*
- *Rust and corrosion protection*
- *Anti-freeze and anti*
- *For cooling system of passenger cars and light duty commercial vehicles*

HEAVY INDUSTRY
by JP Lubricant Group

RENOVAR MULTIGRADE DIESEL ENGINE OILS ARE PREMIUM QUALITY OILS FORMULATED USING THE LATEST TECHNOLOGY, PROVIDING LOW WEAR FOR LONGER ENGINE LIFE, LOW DEPOSIT FORMATION TO MAINTAIN ENGINE PERFORMANCE AND RESISTS BREAKDOWN BY HEAT FOR CONTINOUS PROTECTION.

PERFORMANCE BENEFITS

Premium Formulation

Using the best base materials and premium additives to ensure efficiency and life of the engine.

Engine Cleanliness

High thermal stability provides a high standard of protection against piston deposits which, together with high performance dispersants, delivers excellent control of sludge and deposits in the engine.

Low Engine Wear

The combination of active anti-wear additives and good engine cleanliness controls engine wear giving long engine life, maintaining engine power and efficiency thereby also lowering servicing costs.

High Temperature Protection

Resists thermal breakdown ensuring continued protection throughout the drain interval.

Super High Performance

Provides protection and performance in the latest high power heavy duty diesel engines from European and Japanese manufacturers in both highway and off-highway applications.

APPLICATIONS

Is suited for virtually all heavy duty engines.

API GRADE

CK4, CJ4, CI4, CH4, CF4, CF, CD/SN, SM, SL, SJ, SG, SF

SAE

20W50, 15W40, 15W30, 10W30, 5W30, 5W40

MONOGRADE

SAE 50, SAE 40, SAE 30

RENOVAR HYDRAULIC OIL

Renovar Hydraulic Oil are premium performance anti-wear hydraulic oils designed to satisfy a wide range of hydraulic equipment requirements. Premium quality, shear stable, multi-viscosity, and anti-wear hydraulic fluid, designed for use in hydraulic system subjected to wide variations in ambient and operating temperatures.

Renovar Hydraulic Oil are formulated with high quality base oils and a super-stabilised additive system that neutralises the formation of corrosive materials. They are designed to work with systems operating under severe conditions where high levels af antiwear and film strength protection are needed.

HYDRAULIC OIL AW/AWS

ISO VG 10, 22, 32, 46, 68, 100, 150, 220, 320

ZIN FREE ANTI WEAR HYDRAULIC FLUID

ISO VG 32, 46, 68

GENERAL PURPOSE HYDRAULIC FLUID

ISO VG 32, 46, 68, 100, 150, 220, 320
